LinkedIn: https://www.linkedin.com/in/chadkoslovsky

Summary

Technical founder building client software, AI workflows and developer tools. Built Kerf, an agent-oriented TypeScript framework.

Skills

- Development: TypeScript, React, Next.js
- Data: PostgreSQL
- Infrastructure: Docker, Kubernetes

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

Present

- Partner with clients to prototype, deliver and operate software around their day-to-day needs.
- Build structured AI workflows with review gates and access-controlled MCP and SaaS integrations.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Built tooling for NOC and DevOps teams and for web-hosting and colocation customers.
- Led production escalations and recovery verification; translated technical controls into audit evidence.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Connected onboarding, CRM, provisioning and service workflows through shared systems.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Built diagnostics and supported networks and endpoints for managed-services customers.

Infrastructure and Systems Focal

IBM

2010 - 2012

- Automated audit and backup work and tested virtualized environments for enterprise support teams.

Selected Projects

Kerf: from TypeScript to a running app

Independent framework project

• Built an agent-oriented TypeScript/TSX framework with a compiler, routing, authentication and data tooling.

ProofMark: software people can verify

Completed client contribution

• Designed document signing across application screens, APIs, identity, audit history and verification.

Education

Front Range Community College

Computer Science coursework

2011 - 2013

Certifications and Training

CompTIA A+ | CompTIA | Earned

CompTIA Network+ | CompTIA | Earned

Additional training: Anthropic, AWS, Udemy
